Panrucker's Store - Mirror

THREE PRIZES ARE AWARDED

Three Mirrorizees at least, must have been carrying around a rabbit's foot, horseshoe and other lucky pieces with them lately, for the prizes given by three of the local firms during the holiday business, were all won by residents of Mirror. The 26 piece set of community silver given by Andrew Common, was awarded to Wm. Ray, holder of ticket No. 883. The draw was made by Tony Ann hill, with A. Jewell as witness. Jack Hume was the holder of the winning ticket, No. C 10550, for the parakeets and cage given by the Devereaux Drug Co. Harry Shepherd, making the draw, with J. P. Waters as witness. Ticket No. 2515, held by Mrs. Harry England, won the sewing machine given by H. W. Panrucker. The ticket was drawn by L. Bierwagen, of Belcher, with Harry Shepherd as witness.

Board of Trade Will Meet

A meeting of Mirror Board of Trade is called for next Tuesday evening, January 8th, at the office of the president, J. F. Flewelling. An effort was made to hold a meeting on Thursday evening, but owing to the small attendance no business was transacted. Most important business will come up for discussion next Tuesday evening, and every body is invited to attend.

Freight Cars Off Track

Traffic on the Canadian National Railways north of Mirror was held up for a number of hours on Thursday, on account of the derailment of three freight cars at New Norway. The cause of the wreck was a broken axle. The auxiliary was called from Mirror in the forenoon, and the southbound passenger did not reach Mirror until about 7 A.M. the same evening, being over six hours late.

Parcel Post Social

The finance committee of the Union Church are holding a parcel post social and cafeteria supper in the town hall on Tuesday, January 15th, regarding which further particulars will appear in next week's issue. The committee are making a canvas for donations, and would greatly appreciate a generous response to their request.

Weddings

LOVE—WIGGINS
The marriage of Mr. Andrew Clarence Love and Miss Marion Grace Wiggins, daughter of Mr. and Mrs. Richard Wiggins, of George District, took place on Wednesday, December 18th, at the Union Parsonage, Bashaw, by Rev. Sid Bainbridge. Miss Winnie Oldring acted as bridesmaid, and Don Hoover supported the groom. After the ceremony a sumptuous wedding breakfast was served at the home of the bride's parents. The happy couple left the following day for Everett, Wash., where they will make their home.

MAIR—BEIR

A wedding of interest to Mirrorizees took place at Saskatoon, Saturday, December 22nd, 1923, when Miss Margaret Hortense Beir was married to Mr. Smith Clancy Mair, of Humboldt, Sask. Mrs. Mair has many friends in this district, having taught for a year in the Mirror school.

CARTER—STROME

The marriage took place at Stettler, on Thursday, December 27th, 1923, of Miss Ebbu Strome and Mr. Joseph Carter, of Mirror. The bridal couple were unattended. Mr. and Mrs. Carter have taken up their residence on the L. S. Carter farm, in the South Buffalo Lake district.

SCHOOL CONCERT MUCH ENJOYED

The school concert given at the Grand theatre on Friday evening, December 21st, was bigger and better than ever. The performance of the pupils reflected great credit on those in charge, and the audience were well entertained through out the entire evening.

The part taken by the junior pupils was splendid, both in the recitations and drills, while the older pupils rounded out the programme with some excellent numbers. The force put on by the high school pupils was also well done and gave ample scope for some fine acting by those taking part.

The following is the program: O. Canada; Sadflower Drill. Primary Girls; Reading, Miss Janet Oldring; F. F. Drill, Intermediate Girls; Recitation, Jack Stranika; Chorus, Senior Girls; Recitation, Nettie Zuckarak; Good Night Drill, Primary Girls; Recitation, Nelson Bryan; Chorus, Wandersing House, by the Senior Girls; Indian Drill, Intermediate Boys; Recitation, Mattie Zuckarak; Monody, Mrs. M. M. Hume; Recitation, Yesterday, Senior Girls; Recitation, Eddie Oldring; Single Stick, Senior Boys; Recitation, David Whitney; Solo, Margaret McLean; Recitation, Bobby Cairns; Dutch Girls; Intermediate Girls; Recitation, Andrew Tilley; Recitation, Emma Durrant; Farce, "The Hicksville Bungalow" Senior Pupils.

J. F. Baugh acted as chairman, and Mrs. Baugh, Misses Evans and Panrucker acted as accompanists, assisted by J. E. Might who played the violin. The concert was a success.

Many At Masquerade

A fairly large crowd attended the masquerade dance given by the management of the Grand Theatre on New Year's eve, and were well repaid by the fine music furnished by the five-piece Camrose orchestra. The costumes were good although not as many appeared in masquerade as were expected. The prize for the best dressed lady was won by Mrs. Thos. Mayne, a Turkish lady, while W. R. Stewart, a musketeer, received the one for the best dressed gent. Harold Ray carried off the gent's comie as a negro, and Norman Ray took the lady's comie as a squaw.

Officers Installed

At a regular meeting of Ancient Landmark Lodge, No. 109, A.F. & A.M., held on Wednesday evening last, the following officers were installed by R. W. Bro. J. F. Baugh, D.D. G.M., District No. 15: W.M., W. J. Good; I.P.M., F. E. Murray; S.W., John Anusley; J.W., J. P. Waters; Treasurer, J. H. McLean; Secretary, J. P. Webster; D. of G., W. G. Walker; Chaplain, Frank McKay; S.D., M. H. Olsen; J.D., W. H. Hadden; S.S., E. Webster; J.S., E. Bull; Tyler, F. L. Smithers.

Sidney Grimble, of Edmonton manager of the Montreal Trust Co., was in town this week making arrangements for the sale by auction of the lot, office and furniture of the late Horace J. Raymer. The sale will take place on Wednesday, Jan. 16th, at 3 p.m. opposite the town hall.

Births

In Mirror, Alta., on Saturday, December 22nd, 1923, to Mr. and Mrs. E. E. Estell, a daughter.

At Red Deer, Alta., on Monday, December 24th, 1923, to Mr. and Mrs. Wm. Walker, of Mirror, a son.

Now—a bargain for men!

Devereaux Drug Co., Mirror

The sympathy of a wide circle of friends will be extended J. R. Whitney in the sad loss of his daughter, Mrs. Haggerty, who passed away at Bulwark on Christmas day following a year's illness from pneumonia.

A sad feature of the death of Mr. Haggerty was the news received the day previous by Mr. Whitney of the death of his brother and sister-in-law, at Fairbury, Nebraska, both of whom were shot in their beds. Mr. and Mrs. Whitney left here last week with the intention of spending Christmas with Mr. Whitney's daughter, and the week, which is supposed to be one of joy and gladness has been one of deep sorrow and bereavement.—Bashaw Star.

DOMINION MAY BE AFFECTED BY U.S. QUOTA LAWS

Ottawa—Officials of the federal immigration department are not inclined to believe that the United States Government will extend its quota regulations to include Canada, it was learned here, when dispatches suggesting the possibility of such a change in American immigration laws were drawn to their attention.

Canadian immigration authorities say they are anxious to co-operate with the United States in the enforcement of that country's quota laws, but they point out that the machinery to accomplish such an arrangement must be provided by the republic. The idea that in order to do this Canada should be partially barred is considered unreasonable. One official who has given considerable thought to the question suggested that the United States Government might be able to make it illegal for immigrants entering Canada to proceed to the United States until they had been in the Dominion for a stipulated number of years. This arrangement, it was pointed out, would overcome the difficulty complained of by the United States immigration authorities, without imposing restrictions upon citizens of Canada wishing to enter the United States.

Successful Radio Test

Trans-Atlantic Radio Proves to be Easy Experiment

Hartford, Conn.—The first stretch of the fourth trans-Atlantic amateur radio test series, organized by the American Radio Relay League, found hundreds of amateurs in the United States and Canada listening with utmost ease to transmitting stations in France, Great Britain and Holland. With a single pile of letters and telegrams yet to be sorted and verified, the American Radio Relay League headquarters announced that a total of nine British, five French and two Dutch sending stations had been heard by American amateurs. The amateur farthest west to receive a European station was Royal V. Howard, of Oregon, who heard French's A.

Germany's Financial Situation

Reparations Commission Announces Enquiry to Commence January 14

Paris.—The Reparations Commission formally approved the nominations of the two expert committees who are to investigate Germany's financial situation. The first committee, which on the budget, will meet here January 14, and the second, which will consider German capital abroad, on January 15.

One of the British nominations was changed, Sir Robert Kidderley, a director of the Bank of England, replacing Montague Norman, governor of the bank.

FAVORS POLICY OF PROTECTION WITHIN EMPIRE

Quebec.—An echo of the Imperial Conference in London was heard at a Canadian Club luncheon at the Chateau Frontenac, when Right Hon. W. P. Massey, Premier of New Zealand, addressed the crowded membership of the Canadian and Rotary Clubs. Mr. Massey, always an earnest advocate of preferential tariffs within the Empire, commended some of his enthusiasm to his audience.

At the conclusion of his address he was cheered and then Mr. Massey launched into a vigorous argument in favor of the policy of protection within the Empire. The more that the promoters of the various countries competing the British Empire had been able to get together and discuss questions of mutual interest was, in his view, an achievement. He referred to the fact that no decision of the Imperial Conference was binding on any one of the Dominions; each decision must be ratified by the nation concerned before it became law.

It was the aim, he said, of the majority of those at the Imperial Conference to bring into operation the principle of protection insofar as the Empire was concerned.

"I may as well tell you," he said, "that I am an out and out supporter of preference. True, we cannot do this hurriedly, but we have done it at all that the measure would be of great benefit to the Empire as a whole when it can be put into operation satisfactorily."

W. N. U. 1565

Difficulties Are Great

Reunion of Anglican and Roman Catholic Churches Discussed in Britain

London.—The question of the reunion of the churches, especially the Anglican and Roman Catholic, which was advanced in resolutions at the famous Lambeth Conference in 1926, has made only the smallest headway, according to a Christiana letter which the Archbishop of Canterbury has forwarded to the dignitaries of the Anglican communion.

Reviewing all that has happened since that conference, the archbishop disclosed that three private conferences have since been held at Manchester, initiated by Cardinal Mercier and some few Anglicans, with the object of discussing the outstanding and familiar barriers between the Church of England and the Church of Rome.

The third of these essentially preliminary and unofficial conferences was held only a few weeks ago. The archbishop explains that the conferences cannot properly be described as negotiations, as the Anglican representatives were in no sense delegates of the whole church. The movement has merely sought to effect some restoration of estranged relations and education of perplexed. He believes that further negotiations must follow, but, in conclusion, says:

"The difficulties are immense; you know them as clearly as I do. They may be solved, but they will be a long and impossible. But may I say and Amen: what is God who gives the increase."

To Disseminate

Religious Teachings

Pope's Voice May Soon Be Conveyed By Radio

Chicago.—To disseminate more widely the religious teachings of the Christian church, radio broadcasting is being used in the United States. The large denominations, according to an article in the forthcoming issue of the Radio Digest. The magazine set forth the plan to have the Pope's voice heard by radio, taken by several Christian churches to utilize radio communication as a means of reaching the millions.

The Vatican will, in a few months, adopt radio to spread the word of the Pope to millions of persons over the world. The article declared that the use of a microphone located by Pope Pius XI, in the Vatican, will be enabled to transmit the voice of the Holy Father to almost every land.

Of similar magnitude is the probable scheme of Protestant churches, particularly in the United States, the writer continues. "During the past few years, the Protestant denominations in this country have considered the practicality of radio as a means of spiritual regeneration."

U.S. Meat Production

Greatest in History According to Statement of American Meat Packers

Washington.—Production of meat in the United States this year was the greatest in history, exceeding last year's figures by one and a half billion pounds, according to the Institute of American Meat Packers. A big jump in pork production was largely responsible for the increase, ten million more hogs being brought by the packers than in 1922.

Wholesale meat prices, it was asserted, were the lowest of a decade or more. Declines from peak prices ranged from 20 per cent. to more than 50 per cent.

For Control of Movies
New York.—Religious and civic organizations will be asked to join with officials of the Prohibitionist Church in a congress, to be held at Washington, February 12, to plan a campaign for national legislation to bring all motion picture exhibitions under Federal control. It was announced here.

Ontario Farmers Favor Dairying
Toronto.—Farmers entered the last week of 1923 with glowing and other fall work well in advance of the ordinary, declares the report of the Ontario Department of Agriculture.

Reports from many counties would indicate that dairying is a stronger line of farming this year than ever before.

Edmonton Chinese Protest
Edmonton.—Members of the "Chinese National League" in Edmonton, which includes practically all the local Chinese, are protesting against the proposed Chinese alien warships at Canton, where the customs house has been protected by marines from ships of several of the nations.

Will Erect Statue

To Soldier M.P.

Ottawa.—Preparations are being made for the erection of a life-size statue in the corridor of the House of Commons of the late Lieut.-Colonel G. H. Baker, M.P. for Bromo. Col. Baker had the distinction of being the only Member of Parliament killed in action during the war, although several of them were on service, and Lieut.-Colonel Baker's death was the result of it.

The statue, which is in bronze and very life-like, has arrived in Ottawa from the sculptor, and the unveiling will take place with appropriate ceremony during the coming season.

Sales Tax Changes

Possibility that Some Changes in Act May Be Made Soon

Ottawa.—While the sales tax commences operation, and will not be considered as has been made clear, it is anticipated that several changes will be made and announced soon. An examination of the act discloses that wide powers are covered to the government not only to exempt certain goods from the tax, but also to make regulations and to determine the value of articles for the purpose of the tax. Changes in the inventory system are also likely. It is expected that new rates may be modified to the existing rate. American papers say no new newspaper although most of it comes from Canada, whereas, under the new act, the tax here is raised to six per cent.

U.S. Fleet Hampered

Complaints of Insufficiency of Personnel Made by Chief of Naval Operations

Washington.—Operations of the U.S. fleet during the last fiscal year was "seriously hampered" by the insufficiency of the allowed personnel, Admiral R. E. Connelley, chief of naval operations during that period, declared in his annual report. The necessity of finding crews for several new light cruisers during the year, he added, required cutting down of complements at submarine bases and elsewhere to a point that meant a loss of efficiency.

Valence Active in California

San Francisco, Calif.—Lorenzo P. Valence, who has been active in California, has broken out in eruptions, according to a dispatch from the Reading, Calif. The eruptions in the largest in years, as measured by the volume of smoke emitted.

Vancouver Chief Hurt
Vancouver.—Chief of Police William Anderson was injured while on duty, probably crashed into a street car when the steering gear developed a defect. He was taken to the hospital suffering from serious cuts and bruises to the head and body.

Out on Rail Labor Wages
Brandon, Ont.—It is announced that on Canadian National Railway lines in the future, day laborers will be paid 12 a day, or 25 cents an hour. The new scale represents a reduction of 13 cents an hour, the former minimum wage having been 38 cents.

WESTERN EDITORS

W. J. Watson, Secretary-Treasurer and Business Manager of The Daily Herald, Calgary, Alta.

VENIZELLOS MAY INSIST UPON THE RETURN OF KING

Albans.—The Athens newspapers devote large portions of their space to portraits of M. Venizelos and particulars of the successful effort to have him return to Greece.

The republican papers, while not desiring to minimize the importance of the event, take care to point out that the former premier's solemn hope will only be temporary, and proceed to reveal their fears that Venizelos may insist upon return of the king in order to gain the support of the royalists to his programme.

To Democrats, multiplicity of the republicans, declares that Venizelos will be made to realize that efforts towards a restoration of the dynasty and the prevention of constitutional changes will be futile.

But Venizelos, as follows: "Partisans of Venizelos are borrowing the same words of joy which dignified the legal and honest return of Constantine, but Venizelos is not returning as a victor. His electoral victory is false and non-existent. His people are weighed through the balance of the law."

The Liberals naturally had the return of Venizelos, while the revolutionary government's organ, *Revolutionary League*, expresses the hope of Venizelos eventually being promoted to become the next premier. It declares he cannot regulate the situation unless he personally directs the government.

C.P.R. Official Dead
Montreal.—Rufus Gardner Chamberlain, 60, chief of the department of investigation of the Canadian Pacific Railway, died at the Royal Victoria Hospital after a brief illness.

Fresh Maple Syrup
Brookville, Ont.—Fresh maple syrup made from sap gathered in the sugar bush three days previously, formed part of the Christmas Day menu of a Greenville county farmer.

Increase Shown In Lake Grain Shipments

Windsor.—An increase of 25,743,795 bushels is shown in the total lake shipments of grain from September 1 to December 14, according to official grain movement figures for that period received here by the Canadian National Railways. A total of 216,058,322 bushels of grain moved by water from the Canadian lake of the lakes to Eastern Canada, and United States and Europe, at about 198,258,346 bushels in the same period of 1922.

U.S. Living Costs Lower

But Are Still High Above the Pre-War Averages

Washington.—The cost of living in the United States was one-fifth lower in September this year than it was in June, 1920, when the highest point in living costs since 1913 was reached. A decrease of 9.5 per cent. in the total cost of living in the United States, as determined by a consolidation of the Bureau of Labor Statistics, is shown in an announcement issued by the bureau of statistics.

The cost of living, however, was almost three-quarters more than the 1913 average, September costs showing a 72.1 per cent. increase over the pre-war average.

In the total cost of living, the bureau apportioned 35.2 per cent. to the total expenditures for food, 16.6 per cent. for clothing, 13.4 per cent. for housing, 6.3 per cent. for fuel and lighting, 6.1 per cent. for furniture and furnishings, and 21.2 per cent. for miscellaneous.

Opening Of Parliament

Announced that Session Will Likely Open Early in February

Ottawa.—Announcement of the opening of the parliamentary session will be made soon. It will be called the first part of February. Two dates under consideration are the seventh and thirteenth of that month. If the business can be got in readiness the earlier date will probably be selected.

Estimates are now in preparation and the cabinet will take up, in the intervening weeks, the legislative programme. The session is likely to be more notable for its political situation and the controversial issues that will come up for discussion. *King's* *Review* pretensions legislative programme, although the latter will be considerable.

For World Peace

Boston, Mass.—If the people of the United States approve the plan, unveiled by the jury of the \$100,000 American peace award, created by Edward W. Bok, the latter will take a second step toward the advancement of world peace with far wider scope and interest and an award larger and more important in every respect. Mr. Bok announced. It goes no hint as to the nature of his second step.

Wolves Invade Italian Villages

Naples.—Wolves, driven from the mountains by the exceedingly early weather, have invaded some of the villages surrounding Naples. Several of the basins entered houses on the outskirts of the city, but were beaten off with poles. They then invaded several barns, killing goats.

TURN OF TIDE IN AGRICULTURE HAS NOW SET IN

Washington.—Unrestricted operation of country laws in course of time will bring about better conditions for those who farm, Secretary Wallace, of the Department of Agriculture, told American Farm Bureau Association officials last week here.

"The laws are at work," declared Mr. Wallace. "They are driving people from the farms, and will continue to do so until farm production is reduced to a point where the demand for food will compel a fair price. They are compelling farmers who manage to hold on to follow methods of farming which deplete the fertility of the soil and permit their buildings and equipment to be worn out at a rapid rate. They are reducing the standard of living in the farm belt, and are taking labor by the farm mother, depriving the farm children of their rightful education and the opportunity to be able to create in these a breed of farm life, which will compel them to leave the farms at the first opportunity."

The turn of the tide in agriculture has come in the United States, the secretary said, but for a considerable time the farmer must look for his financial reward, not in the increased value of his land, but by average annual profits from production. After making a survey of the increased value of his land, but by average annual profits from production.

From time to time on the problem will be to increase production on the land which will feed the people at a reasonable price and give the producer a fair return on his capital and a fair wage for his labor.

Prisoners In Germany

Two Belgian Soldiers Claim They Have Been Interned Since 1917

Brussels.—The Government has requested the Belgian Embassy in Berlin to make a thorough investigation of the story told by two Belgian soldiers who arrived in Brussels, saying they had been interned in Germany since May 1917. One of them declared he had been working on a farm, under close guard, and the other said he was a Belgian soldier, captured during the war, and had been interned in Germany. Should the story prove to be true the Government intends to protest energetically to Germany.

Cattle Pest In Australia

Melbourne, Australia.—Cattle, pigs and goats are being slaughtered by the thousands in the areas affected by the rinderpest in Western Australia. Liberators are being paid to buy up the owners of animals which are being killed to prevent the rinderpest, a violent contagious disease of the pharynx, pneumonia and the lungs, which has been controlled equally by the federal and Western Australia authorities.

SETTLERS MAY ARRIVE FROM SUNNY ITALY

St. John, N.B.—Tial Premor Masnelli of Italy is greatly interested in Canada was shown in a message through here by Captain G. Prandi, who arrived on the Canadian Pacific S.S. Minnowood. Captain Prandi has come to Canada to ascertain just what opportunities exist for Italian immigration, and with this object in view, will take up the matter with Col. Dennis, of the C.P.R. Immigration Department. Officers and other officials. He had been in France, where he was looking after the interests of Italian immigrants. He explained that there are a lot of good farmers in Italy who are anxious to come to this country, and who prefer working on the land, but who have been accused in Italy of not working all their lives.

In addition, he said that Premier Masnelli is interested in the welfare of his people and considers that there are golden opportunities for some of them in this country. At the present time, however, he is too good in Italy, and it is felt that they would be able to better themselves by coming to Canada. Captain Prandi pointed out that the class of men desiring to come here are of the best, and are all skilled in farming.

He could make them make useful citizens and would be much towards developing the vast tracts of land in the western provinces. If his negotiations are successful, he said, that he would arrange to have a number of his people brought here during the next few months, so that they could familiarize themselves with conditions and be ready to make a start in the spring.

Ten Teams to Try for Trophy

Great interest is being manifested in the International Dog Derby to be run at Quebec during the Winter Carnival in February next. At present ten entries have been received and others are expected from the north shore of the St. Lawrence, and from the Abitibi mining district. As navigation opens for entries from the latter district to reach 400 miles to reach Quebec. The Northwestern Alaska Chamber of Commerce is keenly interested in the race and is now considering the possibility of entering a team to represent Alaska. If this can be arranged, the Quebec event will be the greatest dog derby in the history of the continent.

It was the first time in the history of the race that a team of two teams, one of which was run by the Brown Corporation, had the misfortune to lose its leader which was run over by an automobile recently, but he has another young dog already trained to replace it, and although he thinks the race will be hard fought, he is confident that his team will again finish in the lead.

Jean Label with his team at Quebec. (Inset) The Dogged Derby Trophy

Plan To Secure Suitable Agricultural Employment For Immigrants From Overseas

The Minister of Immigration has decided to use the organization of the Soldier Settlement Board for the purpose of securing suitable agricultural employment for immigrants who arrive in this country in future.

On the instructions of the department, the board has been organized as a definite service of all provinces, for the purpose of securing the names of farmers who are likely to desire farm help in the spring. These farmers will be invited to submit applications to the board. The applications will be tabulated, the information that is obtained being furnished to the immigration authorities overseas in order that the flow of agricultural help may be regulated and directed to the districts in which it is required.

The board has also been given the duty of receiving and forwarding to immigrant farm help on its arrival in the spring. In order that this may be done, notices will be forwarded from overseas of the names, destinations and dates of sailing of agricultural immigrants. These immigrants will be met on arrival by immigration officials and directed to the districts which are most suited to the immigrants' requirements and capabilities. On arrival in that district, they will be met by the board's officials and directed to the positions secured for them.

The work of securing positions has already been commenced by the Regina district office of the Soldier Settlement Board. The field staff of the board are now engaged in securing the names of farmers who are expected to require farm help in the spring. These farmers, in addition to the farmers who have already been ready on record, are being invited to forward applications for farm help to the local field officers of the board, who are stationed at various centres throughout the province.

In view of the heavy response which was given to the earlier work which was undertaken on behalf of British harvesters, it is anticipated that a large number of applications will be received. Any farmers wishing to secure experience or inexperienced farm laborers should make early application, as the requirements may be filled. It is the intention of the department to bring from overseas agricultural help in the form of every suitable opening which is listed in sufficient time for the necessary arrangements to be made.

A Plain Commencer

Princess Mary's son, Prince of the Royal Blood, and her son and daughter came into the world last winter there has been much speculation as to whether he is a plain commencer or a prince of the royal blood. But the speculation is ended, and Great Britain now knows the King's grandson is not a prince of the royal blood but simply the Hon. Henry Herbert Lascelles, or "Master Lascelles" for short.

This devoted little prince is expected by the 1921 Debrett, the unimpeachable guide to the genealogy of royalty and the aristocracy of the kingdom.

The new name says that a royal warrant declares young Lascelles to be a plain commencer. The warrant asserts that none but children of the sons of sovereign and "the eldest living son of the Prince of Wales" shall have and hold the style, title and attribute of royal highness, with title and dignity of prince and princess.

The warrant does not mention grand children of the King, who may be children of the monarch's daughters.

A Broad Base

Another remarkable thing about the British Labor party has been its success in attracting to itself notable people from various walks of life. Its doors are open to "all who like to work" without regard to the character of the work, and even those who are in a position to be without work are not excluded.

Occasionally a woman cultivates the acquaintance of her next-door neighbor so that she can borrow things.

The first determination of the value of light was made by Rumor in 1855.

W. N. U. 1565

Food Situation in Germany

Germany Has Made It Hard To Feed Her Own People

According to Secretary Hoover's report, Germany has three distinct factors enter into the food situation in that country. One is the inability of the government or of private firms to finance the usual margin of food imports. Another is the breakdown of the currency which has interrupted the distribution of domestic food supplies. The third is unemployment, which has decreased the ability of large classes to buy food.

It is only the bare fourth of a year that all these troubles were inflicted upon the German people by their government. The German harvest this year was above the average. Nine and a half million tons of bread grains were produced, compared with seven million tons last year. The potato crop fell off from forty-one million tons to thirty millions and the sugar crop from 1,629,000 tons to 1,508,000. But Hoover's representative notes a considerable use of potatoes for industrial purposes, which indicates that there is little real fear of a scarcity in that staple.

Germany always has been short of meats, fats and dairy products. She hopes to import, as usual, 700,000 tons of fat, vegetable oils and seeds and possibly 20,000,000 bushels of grains. But these wants are normal and were indicated long ago.

What did the German government do to alleviate them? It has wrecked the mark in order to finance the grotesque campaign of "passive resistance" in the Ruhr and the Rhineland.

It has deliberately created "unemployment" by paying hundreds of thousands of unemployed workmen and women to stay at home and refuse to enterprising to sell his products to the city dwellers, because payment can be made to him only in worthless paper. The currency available and at a year's voluntary abundance of labor in the unemployed territory have brought the German people to the point at which they think they may not be able to feed themselves, and at which they do not hesitate to ask the authorization of a foreign food loan by the Reparations Commission.

After antagonizing the commission and refusing assistance and according to trying to starve the Reich, the German leaders now plead for help to save their people from the consequences of their own bad leadership and obduracy. It is a characteristic Tonten gesture.—New York Tribune.

The Conspiracy of Noise

Numerous agencies in modern life seem to be in league against quiet. Outside on these evenings the rushing automobiles with the screeching horns, the clanging trolley car, inside the music box cutting and the radio blaring the hum and roar of the air, with all and again "the music" in the home are all at work to keep the peace from afar. All are in conspiracy against quiet.—Albany Knickerbocker Press.

Fresh Water Pearl Fishery

A fresh water pearl fishery is one of the hidden unexploited treasures of France, according to a communication by M. Monod, to the Academy of Sciences. He reported a discovery in the centre of France of fresh water mussels that produce pearls, the catching of which is related by him with the best effects of the by-law.

Conversations of the Great

Even Great People Sometimes Discuss Trivialities

What the great talk about? In Mr. J. A. Henderson's recently published life of Campbell-Bannerman there is a passage which sheds an amusing sidelight upon that oft-quoted question. It was at a time when it seemed as though England might go to war with Russia. And so when Campbell-Bannerman was engaged talking to King Edward in the garden of Buckingham Palace the London newspapers at the moment were full of the following caption: "Peace or War?"

Now remember Campbell-Bannerman was a man of the highest intelligence and his private secretary? "Do you know what he was saying to me?" He was asking me whether I thought, in his opinion, that he was better bedded than bedded,"—Daily Journal.

May Appeal to City Council

Basketballers May Appeal Judgments on Blue Sky Law

An appeal to the city council against the judgment of the supreme court of Canada, by which the provincial "blue sky" law is held to be inoperative against a corporation chartered by the Dominion, is possible. Hon. J. A. Cross, attorney-general of the province, suggested.

He stated that the government could not decide whether it would carry the case further until a copy of the judgment showing the reasons on which it is based, was received from the supreme court at Ottawa.

It is estimated the gold production of Nova Scotia this year will reach nearly the same level. As the total production last year was 4,612,196 tons, the increase this year will be more than 1,000,000 tons. The output for 1921 is estimated.

About all you can say for a fine vocabulary is that it makes your friends think occasionally as you talk.

All the world's a stage, but no one wants to play second fiddle in the orchestra.

Since 1901 the U.S. national death rate from tuberculosis has decreased 50 per cent.

An elephant cannot see an object outlined against the sky at more than thirty yards.

Gold and Cobalt

Larger Portion of World's Cobalt Supply Comes from Ontario Mines

Revised statistics issued by the Dominion Bureau of Statistics show that the production of gold for 1922 attained the high total of 1,502,561 ounces, the highest figure produced since 1909 when the Yukon discovery reached the peak of their production. The year's production was valued at \$25,600,000. The total production of the total production, valued at \$29,673,352, was produced by Ontario mines and placers; British Columbia taking second place with nearly four-fifths of the remainder.

The major portion of the world's supply of cobalt, for almost two decades has been derived from the silver-cobalt-bearing ores of the Cobalt district of Ontario. The year's cobalt production was 250,930 pounds which if the average New York quota of \$2.25 per pound were taken would be worth \$562,500. This year's mine, however, had reference to the cobalt content of the ores mined and not to the output of metallic cobalt from Canadian smelters. Cobalt of readiness were exported for treatment which yielded 17,211 pounds of metal, in cash, more than half the production was marketed in the form of oxide.

Yield and Value of Potato Crop

Total Value of Canada's Potato Crop Estimated at \$22,662,000

The area planted in potatoes in Canada in 1922 is estimated at 635,294 acres, a decrease of 14 per cent. The 1922 crop, however, was more than counterbalanced the falling off in acreage planted. This 1922 is shared at 1925, hand-wrecked last year, giving a total yield in 1922 of 9,066,700 hand-wrecked against 55,716,200 hand-wrecked in 1922. The total value of the potato crop is estimated at \$22,662,000, compared with \$22,620,000 last year, the average per hand-wrecked being 81.5¢ against 80 cents in 1922.

Bird Collector Murdered

New Guinea Savages Kill Victim and Atte the Trade

George Pennine, an Australian bird collector, has been murdered by savages in New Guinea, under dramatic circumstances. The collector, who was accompanied by a native guide, was killed and his body was found in a pool of blood.

Radium Brings High Prices

Cadium-Silvich is one of the few minerals in the world that produce radium. Twelve per cent, has been mined there since 1913. The annual output now fluctuates between two and one-half and three grams, worth about \$200.00.

Salmon Worth \$10,000,000

The total pack of coho salmon for British Columbia 1922 season will give the packers more than \$10,000,000, all the cases are marketed at the ruling prices.

Shown That High Grade Fuel Can Be Made By Briquetting Saskatchewan Lignite Coal

Farmers Crop Profitable

Eight Per Cent. Cash Dividend Declared by Saskatchewan Co-operative Elevator Co.

An eight per cent. cash dividend was announced at the 19th annual general meeting of the Saskatchewan Co-operative Elevator Company recently. The financial report showed a net profit of \$112,212.35. Out of the net profit \$127,056 was taken for the dividend. \$125,254.75 was placed in the elevator reserve account and a similar amount to general reserve account. The company's assets are \$7,876,814.56; share capital authorized \$2,878,000; of which \$1,124,214.76 is paid up. The company's liabilities are \$2,538,855.50 of which, as the company's assets are \$7,876,814.56; share capital authorized \$2,878,000; of which \$1,124,214.76 is paid up. The company's liabilities are \$2,538,855.50 of which, as the company's assets are \$7,876,814.56; share capital authorized \$2,878,000; of which \$1,124,214.76 is paid up.

The company, which is a farmers' organization, has three subsidiary companies—the Saskatchewan Co-operative Export Company, James Stewart and Company, Ltd., and the James Stewart Grain Corporation, New York.

No Hitch in Plans

Canadian National Acquires Hotel Scrier for Offices in Paris

Regarding assertions made recently in Canada that a hitch had occurred in the negotiations for acquisition by the Canadian National Railways of Hotel Scrier in Paris for office accommodation, the Canadian Press learns that there is no dissatisfaction whatever on the part of the railway office in Paris. It has received little into a question of bearing accommodation for 20 years or so.

The railway company was unable to rent space at the time under negotiable conditions, and consequently declined to buy.

For the convenience of the management of the building will be incorporated under French company laws.

The Future Citizens

Boys and Girls Who Have an Appreciation of the Value of Time and Money

The best citizens of the future, those who will be most competent to look out for themselves and to serve others, are the boys and girls who have an appreciation of the value of time and money, whose taste for good reading has been cultivated, who are taught the resources of the public library, who have been shown how to discriminate in associations, and whose disappointments have been tactfully directed by discerning parents; whose taste for entertainment has not been suppressed, but enabled along wholesome lines.—Kansas City Times.

Leathe from back of Lord in North during 1922 and the first ten months of the present year numbered 165, according to official statistics.

"It has been demonstrated that is very high grade fuel can be made out of carbonized lignite."

This was the statement made by J. M. Leamy, one of the members of the Lignite Utilization Board, on a new paper dispatch from North Portal, Sask., stating that two members of the board shipped from the board's plant at Heston, Sask., to Heston, N.D., for experimental purposes had received orders to briquette some and that from all appearances the experiment had been a success.

Mr. Leamy stated that progress reports he had received spoke of the quality of the briquettes in the highest terms. The briquettes will likely be shipped in Ottawa and Regina, he said.

Minutes filed with Saskatchewan and Ontario governments establishing and carrying on the plant at Heston, but last summer the Canadian government announced it had decided to discontinue financial support. The withdrawal of Manitoba left the question of funds in the air, and Mr. Leamy said that the briquetting plant in shape, sent some of the carbonized material that had accumulated in Heston for treatment at Heston, N.D.

Mr. Leamy stated the only reason for the briquetting being done at Heston, was a financial matter, and that the conversion of carbonized lignite into fuel in the form of briquettes had been done at the board's own briquetting plant. It was the last of the operation.

"The numbers of the board were satisfied with the work, which has been done at Heston, and I have no doubt the further demonstration at Heston has been successful in every way," said Mr. Leamy.

Edison's First Motion Picture

The Great Train Robbery Filmed 21 Years Ago Still a Possible Show

The first motion picture ever produced, Thomas A. Edison's "The Great Train Robbery," filmed thirty-one years ago, was a recently discovered at the annual meeting of the Visual Instruction Association of America and the Visual Instruction Association of New York.

After the train robbery a modern production of Longfellow's "Miles Standish" featuring Charles Ray was shown on the screen. But the contrast was diminished by the use of a modern production in Longfellow's "Miles Standish" featuring Charles Ray was shown on the screen. But the contrast was diminished by the use of a modern production in Longfellow's "Miles Standish" featuring Charles Ray was shown on the screen.

One speaker, Bloom Ryan Fox, professor of history at Columbia University, said that the film had been made in 1891, and that it was the first motion picture ever produced.

Beautiful incentives in great variety were released in London parks last year as an added attraction for visitors. The innovation was so much appreciated that a butterfly farm is to be established near the British capital, with the object of supplying them to parks in the summer time. It is said that twenty thousand were released in the various London parks that summer, and that the butterflies are under cultivation at the "farm" at this time.

Winter Golf Courses

Nearly two hundred golf courses are now available for winter play in Canada, including the Pacific coast, and most of them are 18-hole courses, with grass greens. The south has 105 courses on which tourists may play for a month or two, while the far west as near as Calgary, Canada, leads the non-tropical states with 25, while Florida has 25.

Mail By Airplane

Plans for airmail mail service from the terminals of the proposed railway at Nome, Alaska, to Fairbanks, are being made by the U.S. post office department. The service, reflecting the use of teams and railroad delivery, will reduce the time of delivery from twenty days to four hours, he said.

The late Andrew Bonar Law, 64, is said to be on his road estate, led a personal estate for profits in London at £51,200.

CHRISTMAS AMID OLD HOMELAND SCENES

The second Canadian National Railway train leaving Winnipeg for Halifax to connect with steamships sailing for United Kingdom ports. Several hundred Western Canadians took advantage of the special rates and special trains arranged by the Canadian National Railway to leave Winnipeg as late as December 11 and reach Britain in time for Christmas. This is a group of Edmonton people aboard the second tourist special.
